This is a demo pdf

Demo456 – part1

- Our vision is that starting a web conference should be as easy as clicking a single metaphorical **big blue button**. As an open source project, we believe it should be easy for others to embrace and extend. And while web conferencing means many things to many people -- our focus is to make the best web conferencing system for distance education.

[tomfullerton - 08:13:06 AM] says double-click on camera to view
[tomfullerton - 08:13:09 AM] but not working
[Scott St Pierre - 10:13:15 AM] can see john
[Scott St Pierre - 10:13:36 AM] I can see john AND alec
re you guys
who is good with better speakers
he open source but need to work on audio
n above? Alan Strange
ju been in contact with the devs/loop?
iving some
hear you...
ju run this
so is cool!
you guys
hat have w
heare us a
click on au
see any of
[Alan Strange - 10:18:40 AM] I hear how thank
[tomfullerton - 08:18:43 AM] have double-click
[datruss - 12:19:20 AM] no sound for me
[paulwood - 10:14:17 AM] now getting the vide
[tomfullerton - 08:19:36 AM] hockey game mis
[paulwood - 10:14:35 AM] I count for a little more than just 2 American
